C., December 14.—The Chamber of Commerce of Kaleigh had a long session last night and decided not to recommend the issue of \$50,000 additional for street improvements. It would be extremely judicious to expend that money on street and sidewalk improvement. The great question here now is that of extension of the city boundary. This will be the keynote in the May election of aldermen, which will therefore be of far more than usual interest. There is a decided movement for an increase of the public-school tax from 15 to 20 cents on the \$100 of property. Up to two years ago, the tax was only 12½ cents. There is need of more money for the public schools.

NEWPORT NEWS INVESTMENTS.

One of the Companies Declares a Large Cash Dividend.

Newroar News, December 14.—The information which reaches here that the Newport News, Hampton, and Old Point Development Company, at their stockholders' meeting held in Richmond Monday, declared a cash dividend of 7½ per cent., payable the 1st of January, surprises no one. This evidence of prosperity is only an earnest of the general value of investment here, and fully sustains the contention regarding their solidity. The several Newport News companies have weathered the depression that prevailed after the boom burst in many other parts of the State, and now there are no safer investments in the country. The reason of this is simply that they are on a foundation of properties that must be built up in order to meet the rapid, continuous, and substantial development. Doubtless the Newport News Company, with its magnificent holdings, and other companies will also declare large dividends in the near future. This is a point for those contemplating investment to think about. The Newport
